INFORMATION DISCLOSURE STATEMENT

APPLICANTS: Assmann et al. CONFIRMATION NO.: 4948

SERIAL NO.: 10/725,622 GROUP ART UNIT: 3737

FILED: December 2, 2003

TITLE: "MRT APPARATUS, METHOD AND COMPUTER PROGRAM
PRODUCT FOR SPEED-RESOLVED FLOW MEASUREMENT"

MAIL STOP AMENDMENT

Commissioner for Patents

P.O. Box 1450

Alexandria, Virginia 22313-1450

S I R:

In accordance with the provisions of 37 C.F.R. § 1.56, Applicants request that citation and examination of the following documents be made during the course of examination of the above-referenced application for United States Letters Patent.

- AA United States Patent Application Publication No. 2004/0015071
- AB United States Patent No. 6,002,254
- AL PCT Application WO 99/63355
- AT "A Flow Velocity Zeugmatographic Interface for NMR Imaging in Humans," Moran, Magnetic Resonance Imaging, Vol. 1, pages 197-203 (1982)
- AU "Motion Correction in fMRI via Registration of Individual Slices Into an Anatomical Volume, Kim et al., Magnetic Resonance in Medicine, Vol. 41, pages 964-972 (1999)
- AV" "Techniken der Magnetresonanz-Angiographie," Laub et al., electromedica, Vol.66, No. 2, pages 62-70 (1998)
- AW "Motion-Selective Encoding for Fast Cine Imaging," Yang et al., Magnetic Resonance in Medicine, Vol. 42, pages 430-435 (1999)

EXPLANATION OF RELEVANCE

The PCT application (which is in Chinese) corresponding to Reference AA, and the published German application corresponding to Reference AB, were cited by the German Patent and Trademark Office together with References AL and AT through AW in connection with the counterpart German application.

For the references that are in English, no further commentary concerning their teachings is necessary. An English translation of Reference AV is not readily available to the Applicants. Reference AV provides a general overview of various techniques for magnetic resonance angiography, including the time-of-flight (ToF) technique, the phase contrast technique, and the contrast agent-enhanced technique.

Copies of References AL and AT through AW are submitted herewith, together with Form 1449 on which all of the references are listed.

As of the date of mailing of this Information Disclosure Statement, a first Office Action on the merits has not been received in connection with this application, and therefore, this Information Disclosure Statement is in compliance with 37 C.F.R. §1.97(b)(3), and no fee is necessary.

The Search Report from the German Patent and Trademark Office in which the above references were cited was dated December 12, 2005. Therefore, should this Information Disclosure Statement cross in the mail with a first Office Action on the merits in connection with the United States application, this Information Disclosure Statement is still in compliance with 37 C.F.R. § 1.97(c) and no fee is necessary. Accordingly, the undersigned counsel states, pursuant to 37 C.F.R. § 1.97(e)(1), that each of the above items was first cited in a communication from a

foreign Patent Office in connection with a counterpart application not more than three months prior to the filing of this Information Disclosure Statement.

All claims of the application are submitted to be patentable over the teachings of the above references, taken singly or in combination. Early consideration of the application is therefore respectfully requested.

Submitted by,

Steven H. Noll (Reg. 28,982)
